DocYonder

Find the right doctor, near you or around the world.

AI that explains your symptoms and medical reports, then connects you with real doctors nearby or trusted clinics abroad.

Aprampal, Founder

Pitch deck · November 2026

www.docyonder.com

THE PROBLEM

Patients wait, guess, and travel without guidance.

28.6 wks

Median wait in Canada from GP referral to treatment, 2025

≈105,500

Canadians estimated to have gone abroad for medical care in 2025

48.6 wks

Median wait for orthopaedic surgery in Canada, 2025

Reports are hard to read

Results arrive before the appointment, with no explanation of what matters.

Wrong doctor, wasted time

People don't know which specialist to see, or who is nearby.

Going abroad is a gamble

Most information comes from sites that sell the trip.

Sources: Fraser Institute, Waiting Your Turn 2025; Leaving Canada for Medical Care 2025 (estimates).

THE SOLUTION

One place from "what's wrong?" to "who can treat me?"

1

Understand

Describe symptoms or upload a lab report, scan or photo. AI explains every result in plain language and names the right specialist.

2

Find care nearby

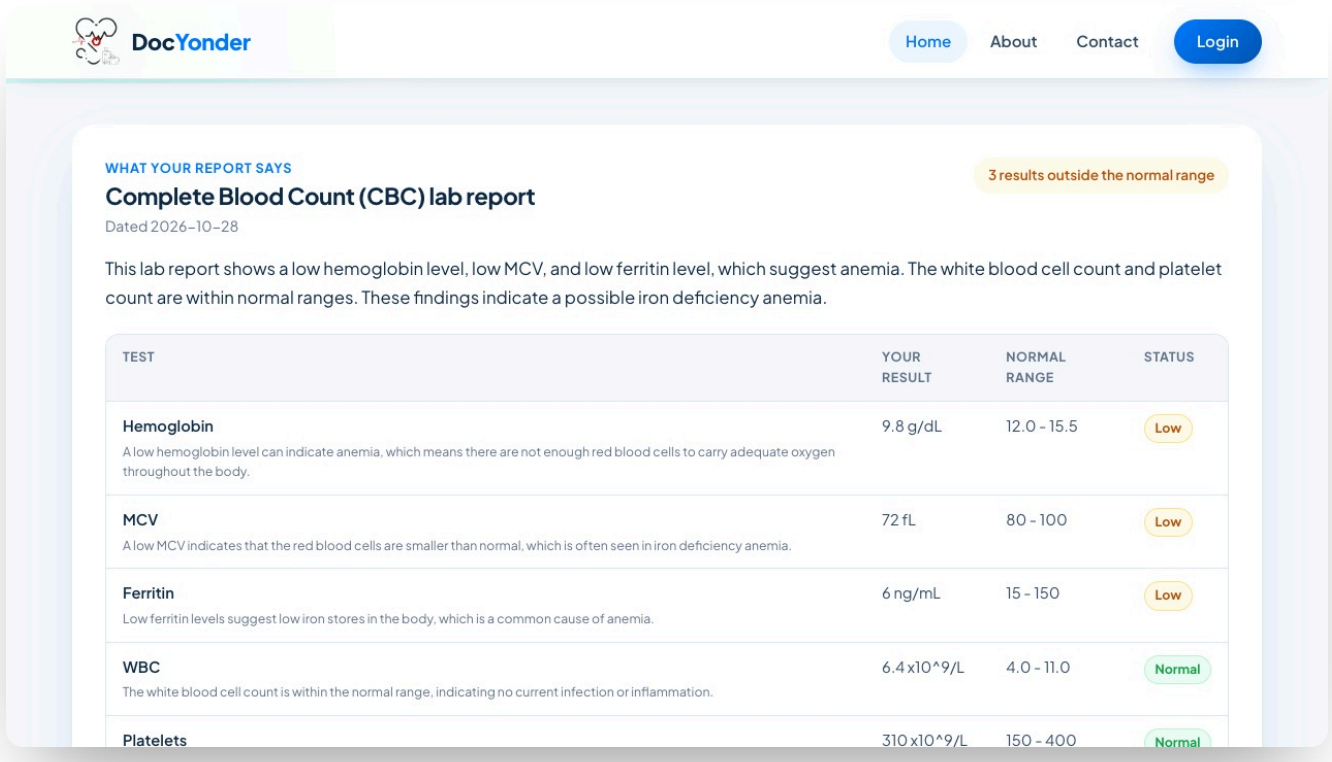

Real doctors near the patient's location, anywhere in the world, with distance, ratings, hours, and one-tap Call or Directions.

3

Compare abroad

For treatments people travel for, typical prices against home, well-reviewed clinics, and a free quote request.

PRODUCT · REPORT EXPLAINER

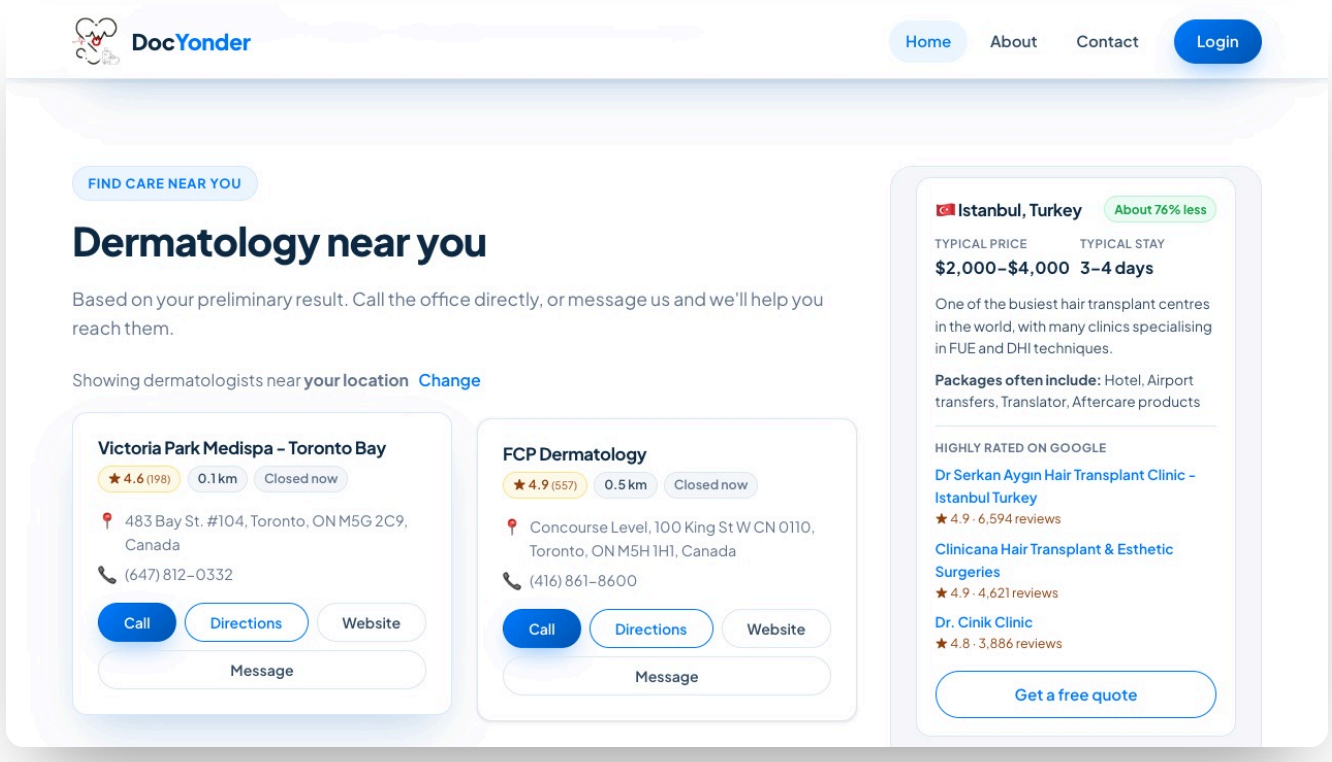

Every result, explained.

- Reads PDFs, **scanned reports** and photos directly
- Each value with its **normal range**, marked low, high or normal
- What the report **points to**, and questions for the doctor
- Says honestly when a report **doesn't explain** the patient's symptoms

● `Live at docyonder.com`

PRODUCT · FIND CARE

Local doctors first. Abroad when it makes sense.

- **Worldwide** doctor search from the patient's location or any city
- Ratings, distance, hours; **Call, Directions, Message**
- 9 treatments compared: **destinations, typical prices, top clinics**
- AI suggests travel only when a treatment truly fits

- `Live at docyonder.com`

THE PRICE GAP

Typical prices abroad are a fraction of US self-pay.

US self-pay Abroad (destinations on DocYonder) Each row on its own scale from $0

Typical advertised ranges in USD from published medical-tourism guides (Medical Tourism Association, PlacidWay, Bookimed, EuroFertile); real quotes vary, travel extra.

BUSINESS MODEL

Free for patients locally. Paid by clinics when patients travel.

REVENUE STREAM	HOW IT WORKS	RATE	STATUS
Clinic referral	Share of treatment price when a referred patient is treated	5–20%*	Next
Travel affiliate	Commission on hotels and flights booked via DocYonder	Per booking	Next
Coordination fee	Full trip planning: clinic, hotel, transfers, translator	Flat fee	Later
Sponsored listings	Clearly labelled, never mixed into ratings	Monthly	Later

ILLUSTRATIVE EXAMPLE

Hair transplant package, Istanbul	$3,000
Referral commission	× 10%
Revenue per treated patient	**$300**

*Published facilitator rates (My1Health 5–15%, Track360 10–20%); no independent industry survey found.

WHERE WE ARE

Built, live and ready for first partners.

Done

- Product **live** at docyonder.com (Nov 2026)
- Report explainer, symptom check, worldwide doctor search
- Treatment-abroad comparisons for **9 treatments**
- Accounts, private medical files, automated testing and deploys

Next 90 days (goals)

- Sign **3–5 partner clinics** (Istanbul, Tijuana, Budapest)
- Launch a structured **quote request** with records upload
- First users testing the report explainer with real results
- Privacy policy, legal and medical-travel review

COMPETITION

Marketplaces list procedures. DocYonder starts with the patient.

	MEDICAL TRAVEL MARKETPLACES	DOCYONDER
Starting point	A procedure and a destination	**The patient's own symptoms or report**
Local care	Rarely shown	**Nearby doctors shown first**
Prices	Clinic-provided	**Typical ranges with linked sources**
Ratings	Often collected by the platform	**Independent Google Maps ratings**
Report understanding	Not offered	**AI explains every result**

Examples of marketplaces: Bookimed, PlacidWay, MyMediTravel.

ROADMAP AND THE ASK

Help us connect patients with the right care.

NOW
Live product, brand, worldwide search

NEXT
Quote form, first partner clinics, travel affiliates

LATER
Coordinators, verified clinic profiles, more languages
